SUMMARY

I'm a skilled MERN stack and React Native developer with two years of experience creating web and mobile apps. I excel in JavaScript, React, Node.js, MongoDB, and MySQL. I am passionate about delivering seamless user experiences and innovative solutions.

WORK EXPERIENCE

Greenlight Abbottabad (MERN STACK Developer)   **Jan 2022 - Aug 2023**

- **Developed Robust Applications:** Utilized the MERN stack (MongoDB, Express, React, Node.js) to create strong and reliable web applications that met project requirements and exceeded user expectations.
- **Enhanced User Experience:** Collaborated with cross-functional teams to improve app performance and user experience resulting in smoother operations and more intuitive interfaces.
- **Implemented Innovative Features:** Actively contributed to the design and implementation of new features, ensuring that the platform remained competitive and up-to-date with the latest industry standards.

Full Stack Developer and React Native developer at EssayShark (Freelancer)   **April 2023 - Present**

- **React Native Development:** Built and maintained mobile applications using React Native ensuring smooth performance and user-friendly interfaces.
- **Web Application Development:** Created web applications using the MERN stack (MongoDB, Express, React, Node.js) delivering high-quality solutions for clients.
- **Backend Integration:** Integrated databases such as Supabase and Firebase to manage data efficiently and support application functionalities.
- **Python Applications:** Developed console-based applications using Python focusing on robust performance and clear code structure. Also developed applications using Flask for web development
- **Timely Delivery:** Managed multiple projects simultaneously and delivered high-quality work on time, ensuring client satisfaction.

EDUCATION

Bachelor in Computer Science   **Aug 2020 - Aug 2024**
- Comsats University Islamabad , Abbottabad Campus

FSC (Pre-Enginnering)   **2018 - 2020**
- Fauji Foundation College Matore

PROJECTS

- **My final year project (Jun 09,2024) :** Sightless Guide: Navigate ,Detect , Read and Call-All by Voice is a voice-based React Native Android app designed to assist blind individuals. It includes features like object detection, voice notifications, emergency calling, text-to-speech, navigation systems, and Pakistani currency detection, all controlled by voice commands.
- **WhatsApp Web Clone (Jun 5, 2023) :** Developed a WhatsApp Web clone using the MERN stack and Socket.IO, featuring Gmail login authentication for secure user chats, document sharing, and audio calls. Usernames and information are sourced directly from Gmail for a seamless experience.

- **PictaScript (Jun 15,2024):** A app using React and Flask. Users can upload images or provide URLs, crop them, and generate descriptions. With a user-friendly MUI interface it offers an interactive experience for image management and analysis.
- **Tourism Management System (Feb 23, 2023):** Developed a tourism management system with an intuitive admin panel and user interface using HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL. Admins can manage bookings and user accounts, while users can log in to explore destinations and easily book trips.
- **Snake and Ladder game (Oct 19, 2023)**: I created a Snake and Ladder game using React Native, where two players compete by rolling a virtual dice to move across a board from 1 to 100. Players climb ladders and avoid sliding down snakes, aiming to be the first to reach 100 to win.
- Beyond these projects I've completed over **50+ projects** including MERN stack and React Native apps to web development and Python. My work shows I can handle different technologies well, delivering diverse solutions and top-quality results for clients.

ADDITIONAL INFORMATION

Technical Skills:

- **Programming Languages:** JavaScript, Python, PHP
- **Frontend Development:** HTML, CSS, React.js, Next.js,TypeScript React Native, Bootstrap, Tailwind, MUI
- **Backend Development:** Node.js, Express
- **Databases:** MySQL, MongoDB
- **Version Control:** Git
- **Frameworks and Libraries:** Redux Toolkit, Socket.IO
- **Mobile Development:** React Native for Android
- **Web Technologies:** RESTful APIs, WebSockets
- **Cloud Services:** Firebase, Supabase

Languages:

- English
- Urdu

Certifications:

- Introduction to Typescript (https://olympus.mygreatlearning.com/courses/104959/certificate)
- Node.js, Express, MongoDB & More: The Complete Bootcamp 2023 (udemy)
- Frontend Development Ultimate Guide Crash Course (udemy)
- Programming in HTML5 with JavaScript and CSS3 (Coursera) (https://www.coursera.org/account/accomplishments/certificate/8JG2PG4M4TUP)
- In addition to these courses, I have expanded my knowledge through other online resources and crash courses covering a range of topics in modern web and software development. This continuous learning has enabled me to stay up-to-date with the latest industry trends and best practices.
- English Speaking Course- June 2021 - Aug 2021 (The ILETS institute Rawalpindi)

Awards/Activities:

- **Coding Club Member**: Actively participated in coding competitions and hackathons.
